

Examination

The exam on the course consists of a written exam and two assignments. The maximum number of points is 100. 25 of these points can be obtained by doing the two assignments. It should be done in groups of two students. The assignment must be handed in to the TA before the start of the seminar exercise. Doing the exercise is optional. Those who do not do it can instead answer an extra question in the written exam and this way also obtain maximum 100 points.
